

**ANNUAL FUNDING NOTICE
FOR
MO-KAN TEAMSTERS PENSION PLAN**

Introduction

April 2026

This notice provides key details about your multiemployer pension plan (the “Plan”) for the plan year beginning January 1, 2025 and ending December 31, 2025 (“Plan Year”).

This is an informational notice. You do not need to respond or take any action.

This notice includes:

- Information about your Plan’s funding status.
- Details on your benefit payments guaranteed by the Pension Benefit Guaranty Corporation (PBGC), a federal insurance agency.

What if I have questions about this notice, my Plan, or my benefits?

Contact your plan administrator at:

Wilson-McShane Corporation
Julie Campbell
PO Box 909500
Kansas City, MO 64190-9500
Phone: 816.756.3313

To better assist you, provide your plan administrator with the following information when you contact them:

- **Plan Number:** 001
- **Plan Sponsor Name:** Mo-Kan Teamsters Pension Fund
- **Employer Identification Number:** 43-6142288

What if I have questions about PBGC and the pension insurance program guarantees?

Visit www.pbgc.gov/prac/multiemployer for more information. For specific information about your pension plan or pension benefits, you should contact your employer or plan administrator as PBGC does not have that information.

Federal law requires all traditional pension plans, also known as defined benefit pension plans, to provide this notice every year regardless of funding status. This notice does not mean your Plan is terminating.

How Well Funded Is Your Plan?

The law requires the Plan’s administrator to explain how well the Plan is funded, using a measure called the “funded percentage.” The funded percentage is calculated by dividing Plan

assets by Plan liabilities. In general, the higher the percentage, the better funded the plan. The chart below shows the Plan’s funded percentage for the Plan Year and the two preceding plan years. It also lists the value of the Plan’s assets and liabilities for those years.

	Funded Percentage		
	2025	2024	2023
Valuation Date	January 1, 2025	January 1, 2024	January 1, 2023
Funded Percentage	134%	129%	124%
Value of Assets	\$225,202,671	\$216,874,296	\$208,427,178
Value of Liabilities	\$167,625,362	\$168,387,263	\$168,278,260

Year-End Fair Market Value of Assets

To provide further insight into the Plan’s financial position, the chart below shows the fair market value of the Plan’s assets on the last day of the Plan Year and each of the two preceding plan years as compared to the actuarial value of the Plan’s assets on January 1.

- **Actuarial values (shown in the chart above)** account for market fluctuations over time. Unlike market values, actuarial values do not change daily with stock or market shifts.
- **Market values (shown in the chart below)** fluctuate based on investment performance, providing a more immediate snapshot of the plan’s funding status.

	12/31/2025	12/31/2024	12/31/2023
Fair Market Value of Assets	*\$253,237,862	\$231,080,233	\$211,876,160

**12/31/2025 audited results are not available at this time. The value listed above represents the Plan’s best estimate.*

Endangered, Critical, or Critical and Declining Status

Under federal pension law, a plan’s funding status determines the steps a plan must take to strengthen its finances and continue paying benefits:

- **Endangered:** The plan’s funded percentage drops below 80 percent. The plan’s trustees must adopt a funding improvement plan.
- **Critical:** The plan’s funded percentage falls below 65 percent or meets other financial distress criteria. The plan’s trustees must implement a rehabilitation plan.
- **Critical and Declining:** A plan in critical status is also designated as critical and declining if projected to become insolvent – meaning it will no longer have enough assets to pay out benefits – within 15 years (or within 20 years under a special rule). The plan’s trustees must continue to implement the rehabilitation plan. The plan’s sponsor may seek approval to amend the plan, including reducing current and future benefits.

The Plan was not in endangered, critical, or critical and declining status in the Plan Year.

Participant and Beneficiary Information

The following chart shows the number of participants and beneficiaries covered by the Plan on the last day of the Plan Year and the two preceding plan years. The numbers for the 2025 Plan Year reflect the plan administrator’s reasonable, good faith estimate.

Number of participants and beneficiaries on last day of relevant plan year	12/31/2025*	12/31/2024	12/31/2023
1. Last day of plan year	December 31	December 31	December 31
2. Participants currently employed	443	436	441
3. Participants and beneficiaries receiving benefits	996	978	983
4. Participants and beneficiaries entitled to future benefits (but not receiving benefits)	425	418	423
5. Total number of covered participants and beneficiaries	1,864	1,832	1,847

**12/31/2025 counts are estimated.*

Funding & Investment Policies

Funding Policy

Every pension plan must establish a funding policy to meet its objectives. The funding policy relates to how much money is needed to pay promised benefits. The Plan’s funding policy is to fund the Plan through a combination of contributions received from contributing employers and investment income generated by the Plan's investments. The funding level is designed to comply with the requirements of the Employee Retirement Income Security Act of 1974, as amended and the Internal Revenue Code of 1986, as amended. These requirements include minimum funding levels and also include maximum limits on the contributions that may be deducted by contributing employers for federal income tax purposes. The Trustees develop and implement the funding policy and monitor the funding level with the assistance of the Plan's actuary.

Investment Policy

Pension plans also have investment policies. These generally are written guidelines or general instructions for making investment management decisions. The Plan’s Trustees have adopted an investment policy to reach its funding goals. The investment policy outlines asset allocations and sets general guidelines for the investment managers. Under the investment policy, moderate short-term fluctuations in the market value of the Plan should not influence the investment structure under normal circumstances and a long-term horizon for investments is warranted, given the Plan’s liability characteristics and the actuarial valuation process that smoothes annual fluctuations in investment performance. The investment policy provides for the diversification of assets so as to minimize the risk of large losses and that the assets of the Plan shall be managed at all times in compliance with the Employee Retirement Income Security Act of 1974 (ERISA).

As of the end of the Plan Year, the Plan's assets were allocated among the following investment categories as percentages of total assets:

<u>Asset Allocations</u>	<u>Percentage</u>
1. Public equity	57.1%
2. Private equity	0.0%
3. Investment grade debt instruments	15.8%
4. High-yield debt instruments	4.9%
5. Cash and cash equivalents	3.4%
6. Real estate	17.2%
7. Other	1.6%

The average return on invested assets for the 2025 Plan Year was **13.6%**. This is based on the estimated fair market value of assets shown above. The actual return for the Plan Year will not be available until later in 2026 when audited financial statements are available.

Events Having a Material Effect on Assets or Liabilities

By law, this notice must include a written explanation of any new events that materially affect the Plan's liabilities or assets. These events could affect the Plan's financial health or its ability to meet its obligations. For the plan year beginning on January 1, 2026 and ending on December 31, 2026, no material events are expected to have such an effect.

Right to Request a Copy of the Annual Report

Pension plans must file an annual report, called the **Form 5500**, with the U.S. Department of Labor. The Form 5500 includes financial and other information about these pension plans.

You can get a copy of your Plan's Form 5500:

- **Online:** Visit www.efast.dol.gov to search for your Plan's Form 5500.
- **By Mail:** Submit a written request to your plan administrator.
- **By Phone:** Call 202-693-8673 to speak with a representative of the U.S. Department of Labor, Employee Benefits Security Administration's Public Disclosure Room.

The Form 5500 does not include personal information, such as your accrued benefits. For details about your accrued benefits, contact your plan administrator.

Summary of Rules Governing Insolvent Plans

Federal law has a number of special rules that apply to financially troubled multiemployer plans that become insolvent, either as ongoing plans or plans terminated by mass withdrawal. The plan administrator is required by law to include a summary of these rules in the annual funding notice. A plan is insolvent for a plan year if its available financial resources are not sufficient to pay benefits when due for that plan year. An insolvent plan must reduce benefit payments to the highest level that can be paid from the plan's available resources. If such resources are not enough to pay benefits at the level specified by law (see Benefit Payments Guaranteed by PBGC, below), the plan must apply to PBGC for financial assistance. PBGC will loan the plan the

amount necessary to pay benefits at the guaranteed level. Reduced benefits may be restored if the plan's financial condition improves.

A plan that becomes insolvent must provide prompt notice of its status to participants and beneficiaries, contributing employers, labor unions representing participants, and PBGC. In addition, participants and beneficiaries also must receive information regarding whether, and how, their benefits will be reduced or affected, including loss of a lump sum option.

Benefit Payments Guaranteed by PBGC

Only vested benefits – those that you've earned and cannot forfeit – are guaranteed.

What PBGC Guarantees

PBGC guarantees "basic benefits" including:

- Pension benefits at normal retirement age
- Most early retirement benefits
- Annuity benefits for survivors of plan participants
- Disability benefits for disabilities that occurred before the earlier of the date the plan terminated or the sponsor's bankruptcy date.

What PBGC Does Not Guarantee

PBGC does not guarantee certain types of benefits, including:

- A participant's benefit or benefit increase until it has been part of the plan for 60 full months. Any month in which the multiemployer was insolvent or terminated due to mass withdrawal does not count toward this 60-month requirement.
- Any benefits above the normal retirement benefit.
- Disability benefits in non-pay status.
- Non-pension benefits, such as health insurance, life insurance, death benefits, vacation pay, or severance pay.

Determining Guarantee Amounts

The maximum benefit PBGC guarantee is set by law. Your Plan is covered by PBGC's multiemployer program. The maximum PBGC guarantee is \$35.75 per month, multiplied by a participant's years of credited service.

PBGC guarantees a monthly benefit based on the plan's monthly benefit accrual rate and your years of credited service. The guarantee is calculated as follows:

1. Take 100 percent of the first \$11 of the Plan's monthly benefit accrual rate.
2. Take 75 percent of the next \$33 of the accrual rate.
3. Add both amounts together.
4. Multiply the total by your years of credited service to determine your guaranteed monthly benefit.

Example 1: Participant with a Monthly \$600 Benefit and 10 Years of Service.

1. Find the accrual rate: $\$600/10 = \60 accrual rate.

2. Apply PBGC formula:
Take 100 percent of the first \$11 = \$11
Take 75 percent of the next \$33 = \$24.75
3. Add the two amounts together: $\$11 + \$24.75 = \$35.75$
4. Multiply by years of credited service: $\$35.75 \times 10 \text{ years} = \357.50

In this example, the participant's guaranteed monthly benefit is \$357.50.

Example 2: Participant with a \$200 Monthly Benefit and 10 Years of Service.

1. Find the accrual rate: $\$200/10 = \20 accrual rate.
2. Apply PBGC formula:
Take the first 100 percent of the first \$11 = \$11
Take 75 percent of the next \$9 = \$6.75
3. Add the two amounts together: $\$11 + \$6.75 = \$17.75$
4. Multiply by years of credited service: $\$17.75 \times 10 \text{ years} = \177.50

In this example, the participant's guaranteed monthly benefit is \$177.50.
